

# Sober Up Corn Peptide

Extracted from high-quality, non-GMO natural corn, and refined using modern bio-composite enzyme technology, three-stage purification, and spray drying techniques.

## Active Ingredients

Corn oligopeptides are rich in branched-chain amino acids (BCAAs). BCAA intake can improve plasma amino acid balance. Therefore, oligopeptides with a high Fischer ratio help alleviate symptoms of liver damage.

## Benefits

- ✓ **Sobering up and preventing hangovers**  
Sober Up can accelerate the breakdown of ethanol in the body, lowering the concentration of ethanol in the blood and achieving the effect of alleviating drunkenness and hangovers. They also have a positive effect on the prevention and treatment of liver and brain diseases. They are the best choice for people who often drink alcohol.
- ✓ **Protect the liver**  
Sober Up can be widely used to treat hepatic coma, cirrhosis, severe hepatitis and chronic hepatitis. They can also prevent and treat liver damage caused by alcohol, fatty liver, etc.
- ✓ **Brightens skin and whitens, soothes and repairs**  
Sober Up inhibits the activity of angiotensin-converting enzyme, reduce the production of angiotensin in the body, lower vascular tension, and have a hypotensive effect. They can also prevent the occurrence of hypertension and have a health-preserving effect on normal people.

## Recommended Dosage

Take twice daily, 2 tablets each time.  
Before drinking, take 4-6 tablets at once.
